### Easter Celebrations at Kew Gardens

The lead up to Easter is always a very special time at Kew Gardens with many *egg*-clectic craft activities organised for our residents by the Lifestyle Team!

During the week before Easter, our Ladies' Craft Group prepared beautiful decorative baskets that were used as the centrepieces for the dining tables on Easter Saturday.

Of course one of the non-chocolate 'favourites' over the Easter holidays is the delightful hot cross bun. These warmly-toasted treats featured at every morning tea during the Easter break; fitting fare for the cooler Autumn weeks!

An Easter Service was provided on Saturday morning for those residents who wished to attend a religious gathering. We also enjoyed a special Easter concert on the Thursday before Good Friday starring Paul Gulinello who performed many beautiful songs to the delight of his audience; the musical programme also provided residents with opportunities to show off their dance moves!

The religious holiday always prompts special cinema showings of iconic films such as *Amazing Grace* and *Ten Commandments* — although we should never need an excuse to watch the great Charlton Heston! Residents also loved waking up Easter Sunday morning to their breakfast trays complete with a special Easter card from Kew Gardens Aged Care Staff. Although, the starring feature was perhaps the large Easter egg that residents could enjoy during the course of the day!

Easter Monday, we had the privilege of enjoying the talents of our very own David on the piano for a special Easter recital. Listening to David's talents is a treat for many family members who come in and visit over the Easter break. It has been a very Happy Easter!
